### Options:

Available as a Kit for Assembly on-site. Stencilled for Identification.

### Usage

Suitable for Packing of Cables, Wires, FRP Rods, UV, Fabric & Cords, Plastic Tubing

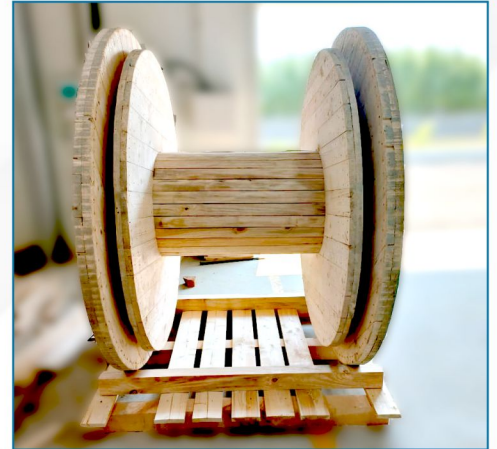

# PRODUCTS

## ROCSTER PAYOFF REELS

The Pay-off Reels by Rocster Exports consists of a standard wooden reel that has oversized flanges attached to both sides and becomes a payout stand when chocked in place.

### Key Properties

Payoff Reels's inner reel spins independently of the outer flanges creating a reel with a built-in payout stand. Just roll the Payoff Reels into place, chock the flanges and start pulling your cable.

Payoff Reels are pre-loaded with the cable of your choice and delivered completely assembled.

By paralleling and phase taping multiple conductors on the same reel, you can further reduce your labor costs and time. Additionally, pulling eyes can be installed on single-conductor cables.

## STEEL CABLE REELS

Long lasting Steel Cable Reels are manufactured using Steel/Iron Fabricated material. The desired appearance is provided by painting the outer surface of reel. Custom Sizes are available as per request. This types of Reels are reusable by Cable Manufacturers and are long lasting with slightly increased cost.

### Product Features:

- Reusable
- No Nails
- Weather Proof
- Environmental Friendly
- Easily Disposable
- Better Safety Of Cable / Conductor
- Recover At Least 35% Value Of The Drums by Scrapping It
- Higher Reliability, Better Strength & More Durability than Wooden Drums

## HARDWOOD/PINEWOOD SIZES

Lagging Sizes for Wooden Cable Drums are available made from Hardwood Timber or Pinewood as per requirements.

### Product Sizes/Specifications

We at Arun Group are committed to Quality & Trust. The Timber Sizes we provide are cater to exact requirements requested by our clients. You can opt for Pinewood or Hardwood Timber as raw materials. Sizes are as per requirements.

## WOODEN PALLETS

ISMP 15 is an international standard for wood treatment. Our wooden pallets are manufactured with wood treated according to the standards & shipped globally.

### Product Sizes/Specifications

International Standards For Phytosanitary Measures No. 15 (ISPM 15), standard developed by international body is required by importers in various countries. The treatment process directly addresses the need to treat wood materials of a thickness greater than 6mm, used to ship products between countries.

Please provide dimension & load bearing capacity requirement to get the best quotes.

### Usage

ISPM treated pallets are used for export packaging/handling. We provide both export & domestic pallets.

# PRODUCTS
